GENERAL CONDITIONS

ADDENDA

It shall be understood that any addenda issued from time to time to furnish additional information to the bidders shall become an integral part of these Plans and Specifications. Receipt of addenda shall be acknowledged by the bidders on the forms provided with any addenda that are issued.

QUESTIONS REGARDING PLANS AND SPECIFICATIONS

Neither the Borough nor any of its representatives will be responsible for non-written answers to inquiries or instructions by any person previous to opening of proposals. Should any bidder be in doubt as to intent of Plans and Specifications, he should at once notify the Engineering Department in writing, who will send a written Addendum to all bidders covering the point in question. Questions will not be answered if received after 1:00 P.M., four calendar days before bid opening date. Failure of proper interpretation or making the necessary inquire will be the Contractor's responsibility.

Before submitting bids, the bidder shall apply in writing to the Engineering Department for clarification or interpretation of any conflicting information between two or more statements in the Plans and Specifications. If such clarification is not requested before bidding, the bidder shall be responsible for doing such work and furnishing such materials, as is necessary to comply with whichever interpretation or the Plans and Specifications the Engineering Department may, during construction, judge to be proper.

The right is reserved by the Engineering Department to correct any errors or omissions in said Plans and Specifications wherever such corrections are necessary for the proper fulfillment of the intentions of the Plans and Specifications.

PROPOSAL GUARANTEE

The Owner agrees to either award contracts or reject bids within sixty (60) days after actual date of opening bids unless time for consideration is extended by mutual consent, and bids shall be binding for that duration.

Should the Owner decide to award contracts he will notify successful bidder in writing. Should any successful bidder, upon being notified, fail to execute a Contract or furnish a performance bond satisfactory to the Owner within ten (10) days of such notification, the owner will be free to award a Contract to another, and the Owner shall have the right to proceed against the guaranty accompanying the bid.

COMPLIANCE WITH ALL LAWS

The Contractor shall observe and comply with all Federal and State laws, rules and regulations, and local ordinances that affect those engaged or employed in the performance of the work described herein, the materials or equipment used, or the conduct of the work. Attention is directed to occupational health and safety regulations.

All laws, regulations and guidelines governing safety in construction as promulgated by the Federal, State, County and local authorities including OSHA shall be complied with at all time by the Contractor. All costs of any nature incurred as a result of compliance with these regulations are considered to be included in the unit prices bid. No separate payment will be made.

SURETY CORPORATION BOND (PERFORMANCE BOND)

Within ten days after award of Contract, successful bidders shall obtain, pay for, deliver to the Owner a performance bond for 100% of the Contract sum, satisfactory to the Owner, and executed by a surety company licensed to do business in the State of New Jersey. Such a bond shall be in the form of New Jersey statutory bond, and shall bear same date as, or dates subsequent to, date of Contract. Said bond shall assure fulfillment of the Contract in all to the Contract, of full reimbursement to the Owner for all expenses incurred by him in making good any default. This bond shall also contain a waiver of notice being required for alterations, additions, deductions, extensions of time or other modifications of Contract, as ordered.

PERFORMANCE OF WORK

Time is an essential consideration of the Contract. Work shall progress with a proper and sufficient force of workmen and ample supply of materials (to the satisfaction of the Engineer) to insure completion of the work by the date specified in the specifications.

Each Contractor shall proceed with his work in such a way and at such a time, as to permit the work of the other Contractors to proceed, and to assure the completion of the work on Contract time. If any part of the work depends upon the work of another Contractor, the Contractor shall inspect and promptly report to the Engineer, in writing, the cause of any delay.

CONDITIONS OF WORK

Each bidder must inform himself fully of the conditions relating to the furnishing of materials, labor or services under which the work will be performed. Failure to do so will not relieve a successful bidder of his obligation to furnish all material, labor, services and all else necessary to carry out the provisions of the Contract Documents and to complete the contemplated work for the consideration set forth in his bid. Insofar as possible, the Contractor, in carrying out his work, must employ such methods or means as will not cause any interruption of or interference with the work of any other Contractor.

The Contractor shall satisfy himself, by careful examination, as to the nature and location of the work, the character of equipment and facilities needed preliminary to and during prosecution of the work, the general and local conditions, and all other matters which can in any way affect work under this contract.

PREVAILING WAGE RATES

Each Contractor hereby agrees to be governed by Federal and/or State Prevailing Wage Rates as amended and supplemented, as if said regulation were set forth herein.

The Contractor, and a condition of the Contract, shall and hereby does agree that, in the hiring of laborers, workmen and mechanics for the performance of work under this Contract or any subcontract here under, neither the Contractor nor his subcontractors, nor any person acting, on their behalf shall, by reason of race, creed, color, sex, national origin or ancestry, discriminate against any citizen of the State of New Jersey who is qualified and available to perform the work to which the employment relates.

The Contractor or his subcontractors, or any person on their behalf shall not discriminate against or intimidate any employee hired for the performance of work under this Contract on account of race, creed, color, sex, national origin or ancestry.

Bids shall be submitted on a Bid Proposal Form included herewith. Any bid having an erasure or interlineation of price may be rejected.

Proposals must be submitted on the prescribed forms. All blank spaces must be filled in, typewritten, or in ink. Each bidder must furnish with his proposal summary information requested.

Before award is made to a bidder, not a resident of the State of New Jersey, such bidder shall designate a proper agent in the State of New Jersey on whom service can be made in the amount of litigation.

Bid prices shall be stated in figures in appropriate places in the "Bid Proposal Form", and bids may be considered nonconforming which contain items not specifically required by these Specifications.

Permission will not be given to withdraw any proposal after it has been deposited with the Owner.

CONSIDERATION OF BID PROPOSALS

To the extent permitted by law, competency and responsibility of bidders, their facilities, experience in similar work, and that of their proposed subcontractors, and amount of alternates, will be considered in making awards, as well as costs. Bids from parties not regularly and practically engaged as Contractors from the scope and class of work bid upon may be rejected after investigation by the Owner.

The Owner may consider nonconforming any bid not prepared and submitted in accordance with the provisions hereof. The Owner reserves the right to reject any or all bids, and to the extent permitted by law to waive an informalities or irregularities in the bids received if it is in the best interest of the Owner to do so.

Contractor's applications for payment shall be on forms furnished by or approved by the Borough. Monthly progress payments shall be mailed within 5 days after the next work meeting of the Governing Body following the Owner's receipt of a completed payment application that has met the appropriate cutoff date.

UNIT PRICES

All unit prices included in bids (see bid forms) shall be NET, and shall include all charges for overhead, profit, taxes, insurance, etc.

Unit prices may be used by the Owner for additions or deductions to the basic work.

Should there be any conflicting information given in the Plans and Specifications, the Borough Engineer or his representative shall be notified of same, and the final decision which shall be followed will be determined by the Borough Engineer.

Prior to the execution of the work, the Contractor shall check the Plans and Specifications and immediately report to the Borough Engineer all errors or omissions discovered therein. Thereafter, during prosecution of the work, the Contractor shall immediately report all further errors or omissions to the Borough Engineer. Any adjustments made by the Contractor without prior approval shall be at his own risk and the settlement of any complications arising from such adjustment shall be made by the Contractor at his own expense.

Nothing in this section shall relieve the Contractor of the obligation to request clarifications or interpretations of conflicting information before bidding.

STANDARD SPECIFICATIONS

All standard specifications referred to, such as American Society for Testing Materials (A.S.T.M.), Federal Specifications (F.S.), American Standard Association (A.S.A.), etc., shall be of the latest issue, including all official amendments and revisions applying thereto, unless otherwise specified.

VARIATION FROM MATERIALS SPECIFIED

Materials or products specified by name of manufacturer, brand, or trade name, or catalog reference shall be the basis of the bid and the named or equal materials or products shall be furnished under the Contract unless changed by mutual agreement. When two or more materials are named, the choice of these shall be optional with the Contractor. Should the Contractor wish to use any materials or products other than those specified, he shall so state, naming the proposed substitutions and indicating what difference, if any, will be made in the Contract price for such substitution, should it be accepted. If, for any reason during the construction of the project, the Contractor deems it necessary to make a materials substitution, the Borough Engineer shall be immediately informed in writing. It shall be understood that the Borough Engineer shall be the sole judge of the suitability of the proposed substitute.

The Contractor shall see that all materials and equipment items are properly cared for, housed and protected from the weather as much as possible at the time of delivery.

The Contractor shall protect, by casing or otherwise, all parts which are likely to be damaged so as to prevent defacement.

The Contractor or Subcontractor, where applicable, will not discriminate against any employee or applicant for employment because of age, race, creed, color, national origin, ancestry, marital status, or sex. The Contractor will take affirmative action to ensure that such applicants are recruited and employed, and that employees are treated during employment, with regard to their age, race, color, national origin, ancestry, marital status, or sex. Such action shall include, but not be limited to the following: employment, upgrading, demotion or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The Contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided by the contracting officer setting forth the provisions of this non-discrimination clause.

The Contractor or Subcontractor, where applicable will, in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive consideration for employment without regard to age, race, color, national origin, ancestry, marital status, or sex.

The Contractor or Subcontractor, where applicable will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice, to be provided by the agency contracting officer, advising the labor union or workers' representative of the Contractor's commitments under this act and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

The Contractor or subcontractor, where applicable, agrees to comply with any regulations promulgated by the Treasurer pursuant to P.L. 1975, c. 127, as amended and supplemented from time to time.

INDEMNIFICATION, INSURANCE, AND ALLOCATION OF RESPONSIBILITY

The Contractor shall maintain adequate insurance to indemnify, hold and save harmless the Borough of Bernardsville, its officers, agents, representatives, servants and employees from and against all suits, damages, claims, demands and actions for any injury to any person or persons, including injury causing death, and for any injury, damage, and/or destruction of property sustained, or alleged to have been sustained, by any party or parties, corporation or corporations, in, about and in connection with the work or any part thereof, or by or on account of any act of commission or omission of said Contractor, his employees, servants or agents and/or by reason of, arising out of, in connection with this contract or the Contract Documents, or the failure or neglect to keep, observe or perform any of their terms, covenants, agreements, provisions or

conditions, the aforesaid being in addition to any other right or remedy which the Borough may have against the Contractor in law or equity or otherwise.

This provision shall be construed to create the maximum indemnification obligation permitted by law. At any time that the Owner determines that the insurance coverage provided by Contractor is not sufficient to provide such protection and indemnification to the Owner, the owner may withhold from any payment due or thereafter coming due to the Contractor under this Contract an amount sufficient, in the Owner's discretion, to provide such protection and indemnification.

The Contractor shall, at no additional cost to Owner, maintain the following insurance coverage at all times during the work:

- a) Comprehensive General Liability (CGL) insurance, in a single limit for bodily injury and property damage of at least \$1,000,000 per occurrence/\$1,000,000 aggregate for the primary policy, and at least \$1,000,000/\$1,000,000 in total coverage including umbrella coverage. CGL coverage shall include at least the following coverages: contractor's protective, completed operation, and contractual liability (including coverage of the indemnification obligation in the preceding paragraph), and the Broad Form Property Damage Liability Endorsement. It shall also include coverage for explosion, collapse, and underground hazards (XCU) unless the Owner deleted such requirement prior to bidding. All liability coverage shall be on an occurrence basis.
- b) Comprehensive Automobile Liability Insurance covering the Contractor for claims arising from all owned, hired, and non-owned vehicles, with a combined single limit for both Bodily Injury and Property Damage of at least \$1,000,000 per occurrence/\$1,000,000 aggregate for the primary policy and total coverage of at least \$1,000,000/\$1,000,000 including umbrella coverage. Automobile liability coverage shall be on an occurrence basis.
- c) Worker's Compensation insurance in the amounts required by law.
- d) All policies shall include extended coverage, and shall name the following as additional named insureds: the Borough of Bernardsville, its officers, agents, representatives, agents, servants, and employees as their interest may appear.
- e) Such other coverages or higher limits, as may be specified elsewhere in the Contract Documents. In case of any apparent conflict between the paragraphs above and insurance requirements elsewhere in the Contract Documents, the more stringent requirement will control.

BEFORE BEGINNING ANY WORK ON THE PROJECT, the Contractor shall furnish to the Owner certificates of insurance showing all required insurance coverages in the limits as described in the Contract Documents and in a form satisfactory to the Owner. Any certificate of insurance shall state that the insurance company will notify the Owner ten days in advance of any cancellation becoming effective.
