All bidders are advised of this schedule since bids must be firm when bid and must remain so for 60 days or longer if otherwise agreed to by the Borough and the bidder.

12. The Borough reserves the right to reject any and all proposals and to make such awards as may be in its best interest. The Borough also reserves the right to waive any informalities or irregularities in any bid.

The Contractor or subcontractor, where applicable, agrees to comply with any regulations promulgated by the Treasurer pursuant to P.L. 1975, c. 127, as amended and supplemented from time to time.

INDEMNIFICATION, INSURANCE, AND ALLOCATION OF RESPONSIBILITY

The Contractor shall maintain adequate insurance to indemnify, hold and save harmless the Borough of Bernardsville, its officers, agents, representatives, servants and employees from and against all suits, damages, claims, demands and actions for any injury to any person or persons, including injury causing death, and for any injury, damage, and/or destruction of property sustained, or alleged to have been sustained, by any party or parties, corporation or corporations, in, about and in connection with the work or any part thereof, or by or on account of any act of commission or omission of said Contractor, his employees, servants or agents and/or by reason of, arising out of, in connection with this contract or the Contract Documents, or the failure or neglect to keep, observe or perform any of their terms, covenants, agreements, provisions or conditions, the aforesaid being in addition to any other right or remedy which the Borough may have against the Contractor in law or equity or otherwise.

This provision shall be construed to create the maximum indemnification obligation permitted by law. At any time that the Owner determines that the insurance coverage provided by Contractor

is not sufficient to provide such protection and indemnification to the Owner, the owner may withhold from any payment due or thereafter coming due to the Contractor under this Contract an amount sufficient, in the Owner's discretion, to provide such protection and indemnification.

The Contractor shall, at no additional cost to Owner, maintain the following insurance coverage at all times during the work:

- a) Comprehensive General Liability (CGL) insurance, in a single limit for bodily injury and property damage of at least \$1,000,000 per occurrence/\$1,000,000 aggregate for the primary policy, and at least \$1,000,000/\$1,000,000 in total coverage including umbrella coverage. CGL coverage shall include at least the following coverages: contractor's protective, completed operation, and contractual liability (including coverage of the indemnification obligation in the preceding paragraph), and the Broad Form Property Damage Liability Endorsement. It shall also include coverage for explosion, collapse, and underground hazards (XCU) unless the Owner deleted such requirement prior to bidding. All liability coverage shall be on an occurrence basis.
- b) Comprehensive Automobile Liability Insurance covering the Contractor for claims arising from all owned, hired, and non-owned vehicles, with a combined single limit for both Bodily Injury and Property Damage of at least \$1,000,000 per occurrence/\$1,000,000 aggregate for the primary policy and total coverage of at least \$1,000,000/\$1,000,000 including umbrella coverage. Automobile liability coverage shall be on an occurrence basis.
- c) Worker's Comp. insurance in the amounts required by law.
- d) All policies shall include extended coverage, and shall name the following as additional named insureds: the Borough of Bernardsville, its officers, agents, representatives, agents, servants, and employees as their interest may appear.
- e) Such other coverages or higher limits, as may be specified elsewhere in the Contract Documents. In case of any apparent conflict between the paragraphs above and insurance requirements elsewhere in the Contract Documents, the more stringent requirement will control.

BEFORE BEGINNING ANY WORK ON THE PROJECT, the Contractor shall furnish to the Owner certificates of insurance showing all required insurance coverages in the limits as described in the Contract Documents and in a form satisfactory to the Owner. Any certificate of insurance shall state that the insurance company will notify the Owner ten days in advance of any cancellation becoming effective.

SPECIAL CONDITIONS

SCOPE OF WORK

Under this contract, the contractor shall be responsible for the emergency inspection and tree pruning/removal work of damaged or downed trees as requested by the Public Works Manager or Borough Representative on an as-needed basis.

GENERAL

Bidders must have a minimum of five (5) years experience in the field of tree pruning/removal and must return the enclosed Contractor's Qualification statement with the bid.

Any bid submitted in which the bidder does not regularly utilize a tree truck with an aerial bucket on a routine basis in daily tree service will be rejected as non-responsive.

Any questions or requests for explanations should be directed to the Public Works Department at (908) 766-3000 x122.

***The successful bidder shall be responsible for notifying the Public Works Manager at least 24 hours prior to the commencement of tree removal/pruning activities in the Borough.

This contract shall be in full force and effect for a period of one (1) year from the date of receipt of proposals.

Unless otherwise indicated by the Public Works Manager, all branches, logs, wood chips and other debris are to be removed from the site and disposed of at sole cost to the Contractor.

SPECIFICATIONS

Upon notification by the Shade Tree Committee or Borough Representative, the Contractor shall inspect the subject tree(s) and prepare an estimate of the number of hours required to perform the work with a "standard crew".

A "standard crew" shall include both men and equipment. At a minimum, the "standard crew" shall consist of one (1) foreman - crew leader, one (1) climber, one (1) tree truck with aerial bucket lift having a minimum reach of not less than 50 feet, automatic unloader, brush chipper and any other tools necessary to complete the work. A "standard crew" will be expected to report to each work site for work to be performed under this contract.

Contractor must make an inspection of emergency work within 24 hours of receiving notice by the Borough. Depending upon the severity of the damage potential, the Contractor may be required to complete the work within 12 hours, but in no event shall the work be completed later than one (1) week from the notice to proceed.

***Contractor must make an inspection of non-emergency work within one (1) week of notification and must complete the work within one (1) week of receiving notice.

Upon approval of the estimate by the Public Works Manager, the contractor shall proceed with the work, providing all equipment, labor, and materials necessary to complete the work. All branches, logs wood chips and other debris shall be removed from the site by the contractor. Stump removal is not required under this contract, but contractors must cut all stumps as close to the ground as possible. Note, however, that the contractor may be asked to grind out stumps upon specific request.

PRUNING/REMOVAL REQUIREMENTS

All dead trees are to be removed in their entirety and cut as close to the ground as possible. All other trees are to be safety pruned. A CLASS III HAZARD PRUNING IS REQUIRED FOR ALL WORK UNDER THIS CONTRACT, unless otherwise noted. Work shall include the removal of dead, diseased, decayed and obviously weak branches, two inches in diameter or greater. Contractor shall observe a Class III pruning as follows:

All cuts shall be made as close as possible to the trunk or parent limb without cutting the branch collar or leaving a protruding stub. Bark at the end of all pruning cuts shall remain firmly attached.

All branches too large to support with one hand shall be precut to avoid splitting or tearing of the bark. Where necessary, ropes or other equipment should be used to lower large branches or stubs to the ground.

Treatment of cuts and wounds with wound dressing or paints has not been found to be effective in preventing or reducing decay and is not generally recommended for that reason. Wound dressing over infected wood may stimulate the decay process. If woods are painted for cosmetic or other reasons, then materials non-toxic to the cambium layer of meristematic tissue can be used. Care must be taken to apply a thin coating of the material only to the exposed wood.

Old injuries are to be inspected. Those not closing properly and where the callus growth is not already completely established should be bark traced if the bark appears loose or damaged. Such tracing shall not penetrate the xylem (sapwood) and margins shall be kept rounded.

Equipment that can damage the bark and cambium layer should not be used on or in the trees. For example, the use of climbing spurs (hooks, irons) is not an acceptable practice for pruning operations on live trees. Sharp tools shall be used so that clean cuts will be made at all times.

All cut limbs shall be removed from the crown upon completion of the pruning.

Trees susceptible to serious infectious diseases should not be pruned at the time of year during which the pathogens causing disease or the insect vectors are most active. Similarly, if pruning wounds may attract harmful insects, pruning should be timed so as to avoid insect infestation.

All visible girdling roots are to be reported to a representative of the Public Works Manager. The presence of any disease condition, fungus fruit bodies, decayed trunk or branches, split crotches or branches, cracks or other structural weakness should be reported in writing to a supervisor and/or the owner and corrective measures recommended.

Contractors shall be responsible for contacting and working with the utility companies where trees are growing in their wires.

NOTE: All branches, logs, wood chips and other debris shall be removed from the site by the contractor unless otherwise directed by the Public Works Manager.

Stumps must be cut as close to the ground as possible.

PROPOSAL COMPARISON

The unit price bid under Item 1 and Alt. 1 (if awarded) shall include the hourly cost of a "standard crew" consisting of a bucket truck, a chipper, a two (2) person crew and all other tools necessary to perform emergency tree pruning/removal of specified trees.

The quantities indicated on the proposal sheet are estimated quantities only. The Borough has limited control over these quantities, noting that work is associated with Emergency Tree work.

For the purposes of competitive bidding, the contract for Emergency Tree Pruning/Removal Services shall be awarded to the lowest responsive and responsible bidder based on the Total bid for Item No. 1. Contract award shall be made at the unit price bid.

PAYMENT

Payment under Item 1 shall be made at the unit price bid times the actual number of hours worked as documented by invoices collected by a representative of the Public Works Manager and upon approval of the work by said representative based upon a site inspection. Payment will only be made for those hours actually worked and travel time will not be reimbursed.

Payment shall be made according to normal Borough payment procedures.
