ORDINANCE #21-1894

AUTHORIZING AND ENCOURAGING ELECTRIC VEHICLE SUPPLY/SERVICE EQUIPMENT (EVSE) & MAKE-READY PARKING SPACES AND SUPPLEMENTING AND AMENDING ARTICLE 12 OF THE BOROUGH LAND USE REGULATIONS ENTITLED “ZONING”

STATEMENT OF PURPOSE: *This Ordinance sets forth procedures for the installation of Electric Vehicle Supply/Service Equipment (EVSE) and Make-Ready parking spaces and establishes associated regulations and other standards within the Borough.*

WHEREAS, supporting the transition to electric vehicles contributes to Borough of Bernardsville's commitment to sustainability and is in the best interest of public welfare; and

WHEREAS, installation of EVSE and Make-Ready parking spaces encourages electric vehicle adoption; and

WHEREAS, the Borough of Bernardsville encourages increased installation of EVSE and Make Ready parking spaces; and

WHEREAS, adoption of this ordinance supports the State of New Jersey's goals to reduce air pollutants and greenhouse gas emissions from the transportation sector as outlined and supported by various programs related to NJ's 2019 Energy Master Plan, Global Warming Response Act (P.L.2007, c.112 (C.26:2C-37 et al.)), and EV Law (P.L. 2019, c. 362); and

WHEREAS, P.L. 2021, c.171, which Governor Murphy signed into law on July 9, 2021, requires EVSE and Make-Ready parking spaces be designated as a permitted accessory use in all zoning or use districts and establishes associated installation and parking requirements; and

WHEREAS, adoption of this ordinance will support the Master Plan of Borough of Bernardsville adopted in concurrence with P.L. 1975 c. 291, s. 1 eff. Aug. 1, 1976, and is consistent with goals of the Master Plan as well as the land use and circulation elements of the Master Plan; and

WHEREAS, the Borough of Bernardsville encourages greater ownership and use of electric vehicles, thus the Borough of Bernardsville is amending the Borough Land development Regulations to establish standards and regulations for the safe and efficient installation of EVSE and Make-Ready parking spaces at appropriate locations.

NOW, THEREFORE, BE IT ORDAINED, by the *Council* of the **Borough of Bernardsville**, County of **Somerset**, State of New Jersey that Article 12 of the Borough Land Use regulations entitled “Zoning” is hereby supplemented and amended as follows::

Section 1. Section 12-23 entitled “Supplementary regulations” is supplemented and amended by adding a new subsection 12-23.24 entitled “Electric Vehicle Supply/Service Equipment” which reads as follows:

12-23.4. ELECTRIC VEHICLE SUPPLY/SERVICE EQUIPMENT

A. Purpose

The purpose of this ordinance is to promote and encourage the use of electric vehicles by requiring the safe and efficient installation of EVSE and Make-Ready parking spaces through municipal parking regulations and other standards. EVSE and Make-Ready parking spaces will support the State’s transition to an electric transportation sector, reducing automobile air pollution, greenhouse gas emissions, and storm water runoff contaminants. The goals are to:

1. Provide adequate and convenient EVSE and Make-Ready parking spaces to serve the needs of the traveling public.
2. Provide opportunities for residents to have safe and efficient personal EVSE located at or near their place of residence.
3. Provide the opportunity for non-residential uses to supply EVSE to their customers and employees.
4. Create standard criteria to encourage and promote safe, efficient, and cost-effective electric vehicle charging opportunities in all zones and settings for convenience of service to those that use electric vehicles.

B. Definitions

Certificate of occupancy: The certificate provided for in N.J.A.C. 5:23-2, indicating that the construction authorized by the construction permit has been completed in accordance with the construction permit, the act and the regulations. See "State Uniform Construction Code Act," P.L.1975, c.217 (C.52:27D-119 et seq.) and regulations adopted pursuant thereto.

Charging Level: The amount of voltage provided to charge an electric vehicle varies depending on the type of EVSE as follows:

1. Level 1 operates on a fifteen (15) to twenty (20) amp breaker on a one hundred twenty (120) volt AC circuit.
2. Level 2 operates on a forty (40) to one hundred (100) amp breaker on a two hundred eight (208) or two hundred forty (240) volt AC circuit.

3. Direct-current fast charger (DCFC) operates on a sixty (60) amp or higher breaker on a four hundred eighty (480) volt or higher three phase circuit with special grounding equipment. DCFC stations can also be referred to as rapid charging stations that are typically characterized by industrial grade electrical outlets that allow for faster recharging of electric vehicles.

Electric vehicle: Any vehicle that is licensed and registered for operation on public and private highways, roads, and streets; and operates either partially or exclusively using an electric motor powered by an externally charged on-board battery.

Electric Vehicle Supply/Service Equipment or (EVSE): The equipment, including the cables, cords, conductors, connectors, couplers, enclosures, attachment plugs, power outlets, power electronics, transformer, switchgear, switches and controls, network interfaces, point of sale equipment, and associated apparatus designed and used for the purpose of transferring energy from the electric supply system to a plug-in electric vehicle. "EVSE" may deliver either alternating current or, consistent with fast charging equipment standards, direct current electricity. "EVSE" is synonymous with "electric vehicle charging station." ***{Note: Definition is directly from legislation and cannot be changed.}***

Make-Ready Parking Space: means the pre-wiring of electrical infrastructure at a parking space, or set of parking spaces, to facilitate easy and cost-efficient future installation of Electric Vehicle Supply Equipment or Electric Vehicle Service Equipment, including, but not limited to, Level Two EVSE and direct current fast chargers. Make Ready includes expenses related to service panels, junction boxes, conduit, wiring, and other components necessary to make a particular location able to accommodate Electric Vehicle Supply Equipment or Electric Vehicle Service Equipment on a "plug and play" basis. "Make-Ready" is synonymous with the term "charger ready," as used in P.L.2019, c.362 (C.48:25-1 et al.). ***{Note: Definition is directly from legislation and cannot be changed.}***

Private EVSE: EVSE that has restricted access to specific users (e.g., single and two-family homes, executive parking fleet parking with no access to the general public).

Publicly-accessible EVSE: EVSE that is publicly available (e.g., park & ride, public parking lots and garages, on-street parking, shopping center parking, non-reserved parking in multi-family parking lots, etc.).

In 2005, Acting Governor Richard J. Codey issued Executive Order #50 adopting NIMS as the standard for all incidents and emergency response events in New Jersey, and prescribing particular training requirements for emergency response providers. On July 20th, 2021 Governor Phillip D. Murphy issued Executive Order 248 rescinding Executive Order #50, and continuing NIMS as the standard for incident management for all planned events and incidents in New Jersey.

EO #248 also authorizes the NJOEM to issue a comprehensive emergency management directive that includes the establishment of minimum requirements and qualifications for NIMS-compliant trainings for emergency response providers, other personnel, and government officials as required by FEMA's NIMS training program. In addition to the training, EO #248 also authorizes all State, county, and municipal agencies to issue such directives, administrative orders, regulations and other guidance as may be necessary to mandate the use of NIMS at all planned events and incidents by personnel within their subject areas of responsibility, in coordination and compliance with the directives of the State Director of Emergency Management. The Executive Order also directs all State, county, and municipal agencies to maintain compliance with federal emergency management training requirements and NJOEM directives.
